

As you come to campus this fall we want you to know that IUP Dining has been working hard to ensure the safety of our customers and employees as we prepare to open. Working within the CDC guidelines and through guidance of the PA Department of Agriculture (Food Licensing) we have created a comprehensive plan to ensure that we offer the safest program we can and continue to provide first class food and service.

Dining on campus will be different, and at times confusing; but we assure you we will have options available to suit your needs and wants. Below we are outlining our general plan for fall operations, subject to change as the needs of the community change.

To ensure your safety we have adopted new ways of service across campus. This fall we will offer the following types of service:

GrubHub - preferred method of dining

- Mobile ordering to go (delivery is not available) please download the app and link your card, directions on how to do this are at the end of this document.

Hand & Go

- Traditional grab and go items are now Hand & Go. Our employees will provide you these quick eats and you can be on your way.

Take Out

- Traditional face to face communication to order food and go

Basic information

- Masks are required in all of our locations
- Social distancing is a must,
- Fountain beverages have been eliminated from our menus, all beverages will be bottled or canned.
- Use of reusable mugs and bottles is suspended
- All food will be served on disposable service ware
- Condiments will be individual packets
- Individually wrapped items will be offered whenever possible
